DETAILED ACTION

Claims 1-75 have been cancelled. Claims 76-150 are pending in this application.

Receipt is acknowledged of both Information Disclosure Statements , filed on Dec 28, 2001 and February 26, 2002 which have been entered in the file.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Election/Restriction

Applicants' election with traverse in Paper No. 6 filed February 26, 2002 of Group III, claims 76-104 and 119-152 drawn to compounds, compositions and method of use wherein R⁵ is piperidinyl group is acknowledged. As stated in the interview summary, the claims directed wherein R⁵ is H, C₁-C₆ alkyl, C₃-C₇ cycloalkyl, fluoro-(C₁-C₆)- alkyl, phenyl or benzyl will be examined along with the elected subject matter.

The traversal is on the ground(s) that each of the elected Group could be extended to other groups without imposing an undue burden on the Examiner. This is not found persuasive because each of the various Groups is directed to art recognized compounds which are different from each other and, are capable of supporting their own patents. Additionally, each group is

classified in different classes and subclasses and the examiner is required to conduct a commercial data base search on each compound which is extremely burdensome.

Therefore, the restriction requirement in paper No. 3 is deemed proper and is made FINAL. Claims 105-118 which are directed to process of preparing compounds according to claim 76 and the method of use claims will be rejoined with the allowed claims as commensurate in scope therewith.

Objections

Claims 76-104 and 119-152 are objected to for containing non-elected subject matter. Claims drawn solely to the elected invention as identified supra, would appear allowable. The claims must be amended to exclude non-elected subject matter.
